## NOTES TO THE INTERIM FINANCIAL STATEMENTS

For the three months ended March 31, 2026 and 2025

(Expressed in Canadian dollars)

### 1. Nature of operations

Unigold Inc. (“Unigold” or the “Corporation”) was incorporated pursuant to the Business Corporations Act (Ontario) on May 9, 1990. The Corporation’s corporate head office is located at 372 Bay Street, Suite 1800, Toronto, ON, M5H 2W9.

Unigold is in the business of exploring its mineral concession properties in the Dominican Republic (“DR”).

### 2. Basis of presentation and going concern

The condensed consolidated interim financial statements for the three months ended March 31, 2026 (“Interim Financial Statements”) include the accounts of the Corporation and its wholly owned subsidiaries – See *Subsidiaries*. All material intercompany transactions and balances are eliminated on consolidation.

#### Subsidiaries

Subsidiaries are entities controlled by the Corporation. Control exists when the Corporation possesses power over an investee, has exposure to variable returns from the investee and has the ability to use its power over the investee to affect its returns. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with those used by the Corporation.

The subsidiaries of the Corporation are as follows:

Corporation	Registered	Ownership	Principal Activity
Unigold Resources Inc.	Canada	100%	Holdco
Unigold Dominicana, S.R.L	D.R	100%	Exploration
Neita Resources S.A.	D.R.	100%	Exploration

#### Going Concern

These Interim Financial Statements have been prepared on a going concern basis. The going concern basis of presentation assumes that the Corporation will continue in operation for the foreseeable future and be able to realize its assets and discharge its liabilities and commitments in the normal course of business. As the Corporation will continue to generate operating losses for the foreseeable future, the Corporation’s continuance as a going concern is dependent upon its ability to obtain adequate financing to advance exploration and meet its corporate cost obligations. To address its financing requirements, the Corporation will seek financing through measures that may include joint venture agreements, debt and equity financings, asset sales, and rights offerings to existing shareholders or other financial transactions. In the event that the Corporation is unable to secure future financing, it may not be able to make additional acquisitions or advance exploration, and for these reasons, there may exist material uncertainties that cast significant doubt on the ability of the Corporation to continue as a going concern.

## NOTES TO THE INTERIM FINANCIAL STATEMENTS

For the three months ended March 31, 2026 and 2025

(Expressed in Canadian dollars)

---

### Title Risk

Although the Corporation has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Corporation's title. Property title may be subject to government licensing requirements, unregistered prior claims and agreements, aboriginal claims, social license requirements, and non-compliance with regulatory requirements.

### 3. Material Accounting Policies

#### Statement of Compliance

These Interim Financial Statements have been prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting* ("IAS 34") as issued by the International Accounting Standards Board ("IASB"). Accordingly, the Interim Financial Statements have been prepared on the basis of and using accounting policies, methods of computation and presentation consistent with those applied in the annual consolidated financial statements prepared for the years ended December 31, 2025 and 2024 ("Annual Financial Statements").

#### Basis of preparation

These Interim Financial Statements are presented in Canadian dollars and are prepared on the historical cost basis. In addition, these Interim Financial Statements are prepared using the accrual basis of accounting except for cash flow information.

#### Accounting standards

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after January 1, 2026. Many are not applicable or do not have a significant impact to the Company and have been excluded.

Future Standards and Amendments - See Annual Financial Statements - note 4 - *Material Accounting Policies*.

#### Currency translation

The functional and reporting currency of the Corporation and its subsidiaries is the Canadian dollar. Transactions in currencies other than the functional currency are recorded at the rates of exchange prevailing on the dates of transactions. Monetary assets and liabilities that are denominated in foreign currencies are translated at the rates prevailing at each reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Foreign currency translation differences are recognized in profit or loss.

### 4. Material accounting judgments and estimates

The preparation of the Interim Financial Statements requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and expenses incurred. Estimates by their nature, are uncertain and therefore actual outcomes could differ from the estimates. The impacts of such estimates are pervasive throughout the Interim Financial Statements and may require accounting

(Expressed in Canadian dollars)

adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised, and the revision affects both current and future periods.

Significant assumptions about the future and other sources of estimation uncertainty that Management has made at the statement of financial position date, could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to the following:

- i. the inputs used in accounting for the valuation of warrants and options which are included in the condensed consolidated interim statement of financial position;
- ii. the inputs used in accounting for share-based compensation expense in the condensed consolidated interim statement of comprehensive loss;
- iii. the estimated useful life of property, plant, and equipment; and
- iv. the existence and estimated amount of contingencies – See note 12 – *Commitments and contingencies*).

**Neita Property**

The Corporation owns 100% of the exploration rights for gold, silver, zinc, copper, and all associated minerals on the Neita Norte and Neita Sur Properties in the northwestern Dominican Republic, as well as a sole and exclusive option for the commercial mining of any identified mineral deposits.

**Permits**

In February 2022, Unigold applied to split the Neita Concession into 2 parts: Neita Sur and Neita Norte. The Neita Norte concession (the northern half of the Neita Fase II concession) was granted a new Exploration Permit on April 27, 2023 which expires on March 3, 2027. The southern portion of the Concession, the Neita Sur area, is the subject of an Exploitation Concession application which would give the Corporation the sole right to extract specific minerals from this area for 75 years.

In May 2022, the Corporation submitted an application for an exploitation permit (the “Permit”) over Neita Sur. The Permit application is in process. The application has moved through the Ministry of Energy and Mines with a recommendation and was forwarded in late 2023 to the President’s office. Although Management is unaware of any impediment to obtaining the Permit, the granting of the Permit is not assured until Presidential Approval is given.

In late 2024 the Ministry of Environment and Natural Resources (“MIMARENA”) indicated that it had changed its regulations to allow Environmental Impact Studies to proceed in advance of awarding the Permit. The Corporation applied for the terms of Reference in late 2024 and is awaiting feedback from the MIMARENA. A number of meetings have been held with MIMARENA but, to date, no clarity has been given on the likely

timing of the approval of the Terms of Reference.

On April 24, 2024, Unigold executed a binding agreement with Barrick Gold Corporation (“Barrick”) that details the terms under which the Corporation will allow Barrick to earn into and form a joint venture (“JV”), in respect of the Neita Norte Exploration Concession (“Neita Norte”) in the DR. Unigold will grant Barrick the exclusive option to acquire a 60% undivided interest in the Neita Norte Exploration Concession by incurring certain expenditures:

- (i) incurring not less than US\$2.5 million of expenditures in respect of the concession within the first three years;
- (ii) incurring a total of not less than US\$8 million of expenditures in respect of the concession within the first six years and delivering a preliminary economic assessment;
- (iii) incurring a total of not less than US\$12 million of expenditures in respect of the concession within the first eight years and delivering a prefeasibility study; and
- (iv) delivering a written notice to Unigold Inc electing to exercise the earn-in right.

Following the earn-in of a 60% interest, Barrick will have the ability to elect to sole-fund and deliver a Feasibility Study by the end of year twelve which will allow Barrick to increase its ownership in the JV to 80%. The JV will be subject to standard dilution clauses which include the criteria that should any partner own less than 15% of the JV they would be immediately diluted to a 2.5% NSR royalty. Barrick will be the manager and operator of the project. Exploration commenced in Q2/2024 and is ongoing. Management believes the earn-in agreement to be in good standing.

There are no other proposed transactions that will materially affect the performance of the Corporation. However, as is typical of the gold exploration sector, Management is continually reviewing potential property acquisition, investment, and joint venture transactions and opportunities.

### 7. Share capital

#### (a) Common shares

Authorized – The Corporation is authorized to issue an unlimited number of common shares with no par value. Issued and outstanding common shares of the Corporation (“Common Shares”) at March 31, 2026, is 338,803,817 (December 31, 2025 – 300,752,642).

#### **2025 Activity**

- (i) On February 20, 2025, Unigold closed a non-brokered private placement with the issuance of 3,664,374 units of the Corporation (“February 2025 Units”) at a price of \$0.08 per unit, for gross proceeds of \$293,150 (“February 2025 Offering”). Each February Unit consists of one Common Share and one-half of one Common Share purchase warrant. A translation gain of \$8,270 was recorded for this transaction at the time the shares were issued. See note 7(a)(v) and 7(b)(i).
- (ii) On May 7, 2025, Unigold closed a non-brokered private placement with the issuance of 1,832,500 units of the Corporation (“May 2025 Units”) at a price of \$0.08 per unit, for gross proceeds of \$146,600 (“May 2025 Offering”). Share purchase warrant. A translation gain of \$1,371 was recorded for this transaction at the time the Common Shares were issued. See note 7(b)(ii).

- (iii) On June 24, 2025, Unigold closed a non-brokered private placement with the issuance of 19,600,000 units of the Corporation ("June 2025 Units") at a price of \$0.08 per unit, for gross proceeds of \$1,568,000 ("June 2025 Offering"). Each June Unit consists of one Common Share and one-half of one Common Share purchase warrant. A translation gain of \$44,564 was recorded for this transaction at the time the shares were issued which reduced share capital by a total of \$1,523,436 for this tranche. See note 7(a)(v) and 7(b)(iv).
- (iv) On September 3, 2025, Unigold closed a non-brokered private placement with the issuance of 1,400,000 units of the Corporation ("September 2025 Units") at a price of \$0.10 per unit, for gross proceeds of \$140,000 ("September 2025 Offering"). Each September 2025 Unit consists of one Common Share and one Common Share purchase warrant. A translation gain of \$2,440 was recorded for this transaction at the time the shares were issued which reduced share capital by a total of \$137,600 for this tranche. See note 7(a)(v) and 7(b)(v).
- (v) The translation gains or losses noted above occur as a result of the movement of the US\$ against the Canadian dollar during the time gap between the private placement proceeds being received and the funds being applied at closing.

### **2026 Activity**

- (vi) On February 25, 2026 Unigold closed a non-brokered private placement with the issuance of 8,167,000 units of the Corporation ("February 2026 Units") at a price of \$0.18 per unit, for gross proceeds of \$1,470,060 ("February 2026 Offering"). **(c) Reserve for share-based payments**

The Corporation has a stock option plan (the "SOP"), a plan of restricted stock units (the "RSU Plan"), and a plan of deferred share units (the "DSU Plan"). The purpose of these plans is to equip the Board of Directors to be able to attract, retain and motivate management, staff, and consultants by providing them with the opportunity, through share options and share issuances, to acquire a proprietary interest in the Corporation and benefit from its growth. The maximum number of options to be issued under the SOP, RSU Plan and DSU Plans shall not exceed 10% of the total number of common shares issued and outstanding.

### RSUs and DSUs

#### RSUs

The Corporation has had a shareholder-approved RSU Plan since May 26, 2022. The Plan authorizes the Board of Directors to grant restricted stock units to directors, officers, employees and consultants. Awards are made and the RSU grantees may elect to receive the awards by either cash redemption, security-based redemption or a combination of both, at the discretion of the Corporation. The maximum number of incentive awards to be issued under the SOP, RSU Plan and DSU Plans shall not exceed 10% of the total number of common shares issued and outstanding. With RSU Plans the maximum number is fixed at the time of plan adoption and that number is 8,695,500 common shares.

As at December 31, 2025, no RSUs have been awarded by the Board of Directors.

#### DSUs

The Corporation has had a shareholder-approved DSU Plan since May 26, 2022. The Plan authorizes the Board of Directors to grant deferred stock units to non-executive directors. Each DSU represents a unit with a value equal to the fair value of one common share of the Corporation. These units vest according to the terms of the Plan but are only redeemable for cash or shares following the director's resignation or retirement from the Board. The recipients of the DSUs may elect to receive the awards by either cash redemption, security-based redemption or a combination of both, at the discretion of the Corporation. The maximum number of incentive awards to be issued under the SOP, RSU Plan and DSU Plans shall not exceed 10% of the total number of common shares issued and outstanding. With DSU Plans, the maximum number is fixed at the time of adoption and that number is 8,695,500 common shares.

On December 31, 2025 the Board of Directors granted DSUs as follows:

- A total of 1,575,000 DSUs at a deemed value of \$0.20 each, vesting 12 months from the grant date, to settle \$315,000 debt for directors' fees; and
- A total of 675,000 DSUs at a deemed value of \$0.20 each, vesting 12 months from the grant date to the five non-executive directors of the Corporation, as a year-end incentive.
  - (i) The fair value of the 1,575,000 DSUs granted for the settlement of debt was deemed to be \$315,000 and recorded to share-based payments.
  - (ii) The fair value of the 675,000 DSUs granted as a year-end incentive was deemed to be \$111,375, or \$0.165 per DSU. The assigned fair value will be amortized in each quarter until the DSUs are settled. Accordingly, for the three months ended March 31, 2026, a total of \$27,843 has been recorded as share-based compensation.

<b>Balance - March 31 2026</b>	<b>1,950,000</b>		<b>369,000</b>

**8. Net Loss per Share**

For the three months ended March 31, 2026, the weighted average number of common shares outstanding was 304,182,553 (2025 - 275,861,505 ).

The effect of outstanding stock options and warrants on loss per share for all periods was anti-dilutive. As such, the effect of outstanding stock options and warrants used to calculate the diluted loss per share has not been disclosed for the periods presented.

**9. Related Party Transactions and Key Management Compensation**
**(a) Related party transactions**

The Corporation's related parties as defined by IAS 24, Related Party Disclosures, include the Corporation's subsidiaries, the Board of Directors, close family members and enterprises that are controlled by these individuals and key management as well as certain persons performing similar functions.

- (i) A director participated in the February and June 2025 Offerings with a total investment of US\$300,000 (\$426,575).
- (ii) Grove Corporate Services ("Grove") provides finance and accounting and corporate secretarial and administrative services (the "Services") to the Corporation. See Key Management Compensation. During the three months ended March 31, 2026, Grove charged the Corporation a total of \$38,279 (2025 - \$38,279) for the Services.

**(b) Key management compensation**

Since January 1, 2020, the Corporation has retained Grove Corporate Services Ltd. ("Grove") to provide the Services, including those provided by the Chief Financial Officer ("CFO") and Corporate Secretary, and corporate communications and administration assistance.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS**

Share-based compensation	<b>48,817</b>	2,304
	<b>\$227,881</b>	\$186,416

(1) Includes the fees incurred for the CEO, CFO, and Corporate Secretary (Toronto).

(2) Certain corporate and technical fees (part CEO and V.P. Exploration) are classified as exploration and evaluation expenditures on the statement of loss and comprehensive loss.

Included in accounts payable and accrued liabilities at March 31, 2026, is \$24,888 (2025 - \$316,984) due and owing to Key Management for unpaid management and directors' fees and reimbursable expenses.

## **10. Financial risk management**

The Corporation's risk exposures and the impact on the Corporation's financial instruments are summarized below. There have been no changes in the risks, objectives, policies, and procedures during the three months period March 31, 2026 and 2025.

### **i) Credit risk**

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Corporation's credit risk is primarily attributable to cash and other receivables. Cash is held with a reputable Canadian financial institution; therefore Management believes the risk of loss to be minimal.

Financial instruments included in other receivables consist of harmonized sales tax ("HST") due from the Federal Government of Canada. Management believes that the credit risk concentration with respect to financial instruments included in other receivables is minimal.

### **ii) Liquidity risk**

The Corporation has in place a planning and budgeting process to help determine the funds required to support the Corporation's normal operating requirements on an ongoing basis and its capital, sufficient funds to meet its short-term requirements, taking into account its anticipated cash flows from operations and its holdings of cash. The corporations accounts payable and accrued liabilities generally have contractual maturities of less than 30 days and are subject to normal trade tenures.

## NOTES TO THE INTERIM FINANCIAL STATEMENTS

For the three months ended March 31, 2026 and 2025

(Expressed in Canadian dollars)

---

As at March 31, 2026, the Corporation has a working capital of \$10,350,740 (December 31, 2025 – \$257,655), and \$10,437,780 cash to settle current accounts payable and accrued liabilities of \$242,759 (December 31, 2025 - \$363,419 cash to settle current accounts payable and accrued liabilities of \$264,536). The Corporation's other current assets consist of other receivables of \$98,651 (December 31, 2025 – \$106,257) which is principally HST and other financial assets and prepaid expenses of \$56,888 (December 31, 2025 – \$52,515).

### iii) Market risk

At present, the Corporation does not hold any interest in a mining property that is in production. The Corporation's viability and potential success depend on its ability to develop, exploit, and generate revenue from the development of mineral deposits. Revenue, cash flow, and profits from any future mining operations in which the Corporation is involved will be influenced by precious and/or base metal prices and by the relationship of such prices to production costs. Such prices can fluctuate widely and are affected by numerous factors beyond the Corporation's control.

### iv) Foreign exchange risk

The Corporation's financings are principally in Canadian dollars. Certain expenditures of the Corporation's subsidiary Unigold Dominicana, S.R.L.'s activities are incurred in U.S. dollars (US\$) and Dominican Pesos (DOP) and are therefore subject to gains or losses due to fluctuations in exchange rates. The Corporation is therefore, subject to foreign exchange risk. As at March 31, 2026, the Corporation had foreign cash balances in the Canadian equivalent of \$7,936,871 and trade payables of \$64,522 (December 31, 2025 – \$359,978 and trade payables of \$144,880). Sensitivity to a plus or minus 10% change in the foreign exchange rate would have resulted in a decrease in the net assets of the Corporation in the amount of \$787,235 at March 31 2026 (December 31, 2025 – \$21,510). The Corporation does not undertake currency hedging activities to mitigate its foreign currency risk.

### v) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Corporation's current policy is to earn interest on investment-grade short-term deposit certificates issued by its financial institutions. The Corporation periodically monitors the investments it makes and is satisfied with the creditworthiness of its financial institutions. As of March 31, 2026, interest rate risk is minimal since the Corporation has no interest-bearing debt instruments.

### vi) Fair value of financial assets and liabilities

Fair value estimates are made at the reporting date based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties in significant matters of judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect these estimates.

## NOTES TO THE INTERIM FINANCIAL STATEMENTS

For the three months ended March 31, 2026 and 2025

(Expressed in Canadian dollars)

---

The carrying values of cash, other receivables, other financial assets and accounts payable and accrued liabilities approximate their respective fair values due to the short-term nature of these instruments.

### 11. Capital risk management

The Corporation considers its capital structure to consist of share capital, warrants and share-based payments reserves, and accumulated deficit. The Corporation manages its capital structure and makes adjustments to it, in order to have funds available to support its exploration and corporate activities.

The Corporation's objective when managing capital is to safeguard the Corporation's ability to continue as a going concern in order to advance the exploration of its mineral properties and maximize shareholder returns. The Corporation satisfies its capital requirements through careful management of its cash resources and by utilizing its existing credit facility or equity issues, as necessary, based on the prevalent economic conditions of both the industry and the capital markets and the underlying risk characteristics of the related assets. There have been no changes to the Corporation's approach to capital management during the three months ended March 31, 2026.

Management reviews its capital management approach on an ongoing basis. The Corporation and its subsidiaries are not subject to externally imposed capital requirements other than the capital requirements of the TSX Venture Exchange which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of six months. At March 31, 2026, Management believes the Corporation is compliant with Policy 2.5 of the TSX-V.

### 12. Commitments and contingencies

#### i) Legal proceedings

The Corporation and its entities are parties to certain legal proceedings arising in the ordinary course of business. In the opinion of Management, there are no current legal proceedings or other claims outstanding, which, on final disposition, could have a material adverse effect on the financial position of the Corporation.

#### ii) Environmental matters

The Corporation's exploration activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Corporation conducts its operations so as to protect public health and the environment and believes its operations are materially in compliance with all applicable laws and regulations. The Corporation has made, and expects to make in the future, expenditures to comply with such laws and regulations.

The Corporation has operated in the mineral exploration industry in the Dominican Republic for many years. The enforcement of environmental regulation in the Dominican Republic is evolving, and the enforcement posture of government authorities is continually being reconsidered. The Corporation periodically evaluates its obligations under environmental regulations.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS****For the three months ended March 31, 2026 and 2025**(Expressed in Canadian dollars)

---

**iii) Guarantees**

The Corporation has no outstanding guarantees.

**iv) Contingencies**

The Corporation is a party to certain employment contracts. These contracts contain clauses requiring that up to \$480,000 be paid on termination for other than cause.

**v) Operating contractual and payroll obligations**

The Corporation is party to several operating contracts and commitments, in both Canada and the Dominican Republic.

**(a) Management fees**

The Corporation is a party to certain Management employment/consulting contracts in Canada and in the Dominican Republic. If the employees are terminated for "other than cause", certain employees shall be entitled to severance payouts in amounts established in their employment agreements. Employees and consultants may also be entitled to bonuses depending on the terms of their employment/engagement.

**(b) Directors' fees**

Directors' fees are set at \$20,000 per annum, per director. The Chair of the Audit Committee receives an additional \$20,000 per annum, for serving in that role.

**(c) Corporate services agreement**

Since January 2020, the Corporation has retained Grove, a private corporation that provides CFO and Corporate Secretarial consulting services, corporate communications, and administrative services. This is a renewable agreement that may be terminated by the Corporation with 90 days written notice provided to Grove of the Corporation's intention to terminate the agreement. See note 9 – *Related Party Transactions*.

**(d) Exploration staff (non-resident) and employees' severance**

If qualified personnel are not available in the DR, Unigold may retain non-resident geologists and other contractors to staff the exploration programs.

The Dominican Republic has laws requiring severance payments if employees are terminated. As at March 31, 2026, the total liability is approximately \$254,609 (December 31, 2025 - \$243,249). This figure changes subject to fluctuating foreign exchange rates and the number of employees hired/terminated. As the likelihood of the terminations taking place is not determinable, the contingent payments have not been recorded in the Interim Financial Statements.

**(e) Specialty technical contracts**

From time to time, the Corporation engages technical consulting firms to deliver specialized services for the Corporation's ongoing projects. These contracts are structured on standard commercial terms. As the Corporation moves towards development more technical service contracts will be contemplated.

**13. Segmented information**

The Corporation's only activity is mineral exploration and evaluation. All of the Corporation's land, vehicles, field equipment, and camp and buildings are physically located in the DR. All of the Corporation's exploration and evaluation activities referred to in note 6 relate to properties situated in the DR.
